Career Objective

Goal-oriented B.Tech Data Science student with strong proficiency in Python and SQL, hands-on experience with Power BI and Excel, and a foundation in machine learning and NLP. Seeking an entry-level data analyst or data science role to apply analytical skills, support data-driven decision-making, and grow professionally.

Education

Guru Nanak Institutions Technical Campus

B.Tech in Computer Science and Engineering (Data Science)
CGPA: 8.1

Hyderabad

Aug 2024 – May 2027 (Pursuing)

Vivekananda Institute of Technology and Science

Diploma in Electrical and Electronics Engineering
CGPA: 9.3

Aug 2021 – Apr 2024

TS Model School

SSC – CGPA: 10.0

Mar 2021

Technical Skills

Languages:	Python, SQL
Tools & Platforms:	Power BI, Microsoft Excel, Hadoop
Libraries/Techniques:	NLP, Machine Learning, Random Forest, K-mers Feature Extraction
Databases:	Relational Databases (IBM Certified)

Projects

DNA Sequence Prediction Using NLP and Machine Learning

- Led a team of 4 to build an end-to-end ML pipeline for DNA sequence classification.
- Applied k-mers technique for feature extraction from raw DNA sequence data.
- Trained and evaluated models using Random Forest algorithm, achieving accurate sequence predictions.
- Demonstrated proficiency in Python, scikit-learn, and NLP preprocessing techniques.

PLC-Based Traffic Light Control System

Industrial Training – TS NPDCL (33/11KV Sub-Station)

- Designed and implemented an automated traffic light control system using Programmable Logic Controllers (PLC).
- Programmed signal timing sequences (red, yellow, green) to enable automated and manual management.
- Gained hands-on experience in industrial automation during a 6-month training program.

Certifications

- Data Analytics – Novi Tech R&D (Jan 2025 – Feb 2025)
- IBM Online Certification – SQL and Relational Databases
- IBM Online Certification – Hadoop
- Power BI Certification – Skill Course
- Excel: Beginner to Expert – Analytics Vidya
- Python Bootcamp (3 Days) – Upgrade
